additional 20-year period. The extension is necessary to continue protection of the scenic, recreational, and fish and wildlife habitat values in the scenic section of the Illinois Wild and Scenic River located in the Rogue River-Siskiyou National Forest between the mouth of Deer Creek and the mouth of Briggs Creek, which would otherwise expire on June 30, 2013.

DATES: As of: July 1, 2013.

FOR FURTHER INFORMATION CONTACT: Michael L. Barnes, Bureau of Land Management, Oregon/Washington State Office, 503–808–6155, or Dianne Torpin, United States Forest Service, Pacific Northwest Region, 503–808–2422. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact either of the above individuals. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with either of the above individuals. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The purpose for which the withdrawal was first made requires this extension to continue to protect the scenic, recreational, and fish and wildlife habitat values of the scenic section of the Illinois Wild and Scenic River between the mouth of Deer Creek and the mouth of Briggs Creek located in the Rogue-Siskiyou National Forest. The withdrawal extended by this order will expire on June 30, 2033, unless as a result of a review conducted prior to the expiration date, pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary determines that the withdrawal shall be further extended.

Order
By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands are hereby withdrawn from location and entry under the United States mining laws (30 U.S.C. Ch. 2), but not from the public land, mineral leasing, geothermal leasing, or mineral material laws, to protect 17 solar energy zones:

2. The areas described aggregate 3,343 acres.

3. Copies of maps depicting the land descriptions are available within the Programmatic Environmental Impact Statement for Solar Energy Development in Six Southwestern States Web site (http://solaris.anl.gov) and are also available from the Bureau of Land Management offices listed in the “For Further Information Contact” section above.

Dated: June 20, 2013.

Rhea S. Suh,
Assistant Secretary—Policy, Management and Budget.

Sec. 19, lots 1 and 2, NE¼, and E½NW¼; Sec. 20, excluding the Minersville Canal;
Summary: The Bureau of Land Management (BLM), Tucson Field Office (TFO), proposes to sell a parcel of public land consisting of approximately 5.96 acres in Pima County, Arizona. The parcel is being proposed for noncompetitive direct sale to the Three Points Fire District under the provisions of the Federal Land Policy and Management Act of 1976, as amended (FLPMA), and the BLM sales and mineral conveyance regulations for the appraised fair market value (FMV) of $83,440.

**DATES:** Comments regarding the proposed direct sale must be received by the BLM within 45 days of the date this notice is published in the Federal Register.

**ADDRESSES:** Written comments concerning the proposed sale should be sent to Brian B. Bellows, Field Manager, BLM Tucson Field Office, 3201 East Universal Way, Tucson, AZ 85756.

**FOR FURTHER INFORMATION CONTACT:** Linda Dunlavey, Realty Specialist, at the above address, or phone 520–258–7260.

**SUPPORTING INFORMATION:**

**A.** The described area consists of approximately 5.96 acres in Pima County, Arizona. This area is located south of the Town of Marana and west of Tucson. The parcel is suitable for disposal by a direct sale. The public land was identified as suitable for disposal in the BLM Phoenix Resource Management Plan and Record of Decision approved September 29, 1989. It is not needed for any other Federal purpose, and is difficult and uneconomic to manage. Disposal would alleviate the continued administration of existing land use authorizations. This is an important public project for the community of Three Points as it will provide a permanent solution for fire protection services. Speculative bidding would jeopardize the timely completion and economic viability of the project. A competitive sale is therefore not appropriate and the public interest would best be served by a direct sale. No significant biological and cultural resource values have been identified. There are no impacts to resource values that are expected from this action. The BLM prepared a mineral potential report dated February 23, 2012, and concluded that the lands identified for sale have no known mineral value. The BLM proposes that conveyance of the Federal mineral interests would occur simultaneously with the sale of the land. The project is not expected to affect the Tohono O’Odham Indian Reservation and the San Xavier Indian Reservation, which are located within 10 miles of the sale property.

Conveyance of the identified public land will be subject to valid existing rights and encumbrances of record, including, but not limited to, rights-of-ways for roads and public utilities. On July 5, 2013 the above-described land will be segregated from all forms of appropriation under the public land laws, including the mining laws, except for the sale and mineral disposal provisions of FLPMA. Upon publication of this Notice of Realty Action and until completion of the sale, the BLM will no longer accept land use applications affecting the identified public land, except applications for the amendment of previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. The segregation will terminate upon issuance of a patent, publication in the Federal Register of a termination of the segregation, or on July 6, 2015, unless extended by the BLM Arizona State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date. The land will not be sold until at least 60 days after the date of publication of this notice in the Federal Register at the appraised FMV of $83,440. The patent, if issued, will be subject to the following terms, conditions, and reservations:

1. A reservation of a right-of-way to the United States for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945); and

2. A condition that the conveyance be subject to all valid existing rights documented on the official public land records at the time of patent issuance, including:

   - Right-of-way AZA–33726 to Trico Electric for a 15-foot-wide buried power line.
