

Amargosa Valley Solar Energy Zone (SEZ)
SEZ-Specific Design Features

(from Solar PEIS ROD, Section A.4.2)

- *Specially Designated Areas and Lands with Wilderness Characteristics:* Water use for any solar energy development should be reviewed to ensure that impacts on Death Valley NP, the Ash Meadows National Wildlife Refuge, and ACECs would be neutral or positive.
- *Recreation:* Relocation of the designated route used for desert racing and commercial tours should be considered at the time specific solar development proposals are analyzed.
- *Water Resources:* Groundwater analyses suggest that full build-out of wet-cooled technologies is not feasible; for mixed-technology development scenarios, any proposed wet- and dry-cooled projects should utilize water conservation practices.
