

Milford Flats Solar Energy Zone (SEZ)  
SEZ-Specific Design Features

(from Solar PEIS ROD, Section A.4.2)

- *Lands and Realty*: Priority consideration shall be given to utilizing existing county roads to provide construction and operational access to the SEZ.
- *Water Resources*: Groundwater analyses suggest that full build-out of wet-cooled technologies is not feasible; for mixed-technology development scenarios, any proposed wet-cooled projects should utilize water conservation practices.
- *Water Resources*: During site characterization, coordination and permitting with Utah DWR regarding Utah's Stream Alteration Program would be required for any proposed alterations to surface water features.
- *Wildlife (Birds)*: The steps outlined in the *Utah Field Office Guidelines for Raptor Protection from Human and Land Use Disturbances* should be followed.
